Task: Gather data from IMDB movie ratings for a list of multiple URLs. Many will be duplicates. This is fine.

Step 1:

Scrape IMDB content ratings for several lists of content

1. 175 URLs / videos from here https://www.imdb.com/search/title?certificates=ID:SU
2. 49 URLs / videos from here https://www.imdb.com/search/title?certificates=ID:21%2B
3. 186 URLs / videos from here https://www.imdb.com/search/title?certificates=ID:13%2B
4. 253 URLs / videos from here https://www.imdb.com/search/title?certificates=ID:17%2B
5. Top 200 (first 4 pages) from here https://www.imdb.com/search/title?certificates=US:R
6. Top 200 (first 4 pages) from here https://www.imdb.com/search/title?title_type=feature
   Total of 1063 videos, many will be duplicates

Result:
Get the ID of each content: https://www.imdb.com/title/**tt0217869**/?ref_=adv_li_tt

Step 2:

Search for the content ID to get the content ratings:

https://www.imdb.com/title/**tt0217869**/parentalguide <—— Replace with the ID

Scrape:
  1) Content certifications:
       a) This is the list mentioned below in the first image. Ie: ["Argentina:Atp", … ,"United States:PG"]
  2) User Rating distributions (# None, # mild, # moderate, # Severe) "Sex & Nudity", "Alcohol Drugs and Smoking", "Frightening and intense scenes", "Profanity" (note, you need to click though / grab from the "ipl-vote-button__details" span class)
  3) User comments

Output required for delivery (Google Spreadsheet):

Content ID	Title	Ratings (all, comma separated)	Sex Nudity None	Sex Nudity mild	Sex nudity moderate	Sex nudity severe	Sex Nudity Comments	[other areas in other columns]
tt54765476	"Title of	"ID:17+","U	0	5	25	5	"Comment	

	Movie”	S:R”, etc...					1”, “Comment 2”	
All ~							

Images below:

All content certification box to be scraped for each title

Certification   Argentina:Atp | Australia:PG | Belgium:KT/EA | Brazil:Livre |
Canada:PG (Alberta) | Canada:PG (British Columbia) |
France:Tous publics | Germany:6 | Greece:K | Hungary:6 |
Indonesia:SU | Ireland:PG | Italy:T | Japan:G | Malaysia:P13 |
Mexico:A | Netherlands:6 | Philippines:PG-13 | Portugal:M/6 |
Russia:6+ | Singapore:PG | South Korea:All | Spain:A | Sweden:7 |
Switzerland:8 | Taiwan:GP | United Kingdom:PG |
United States:PG (certificate #51520)

Below is an example of the box with user ratings and comments.

Sex & Nudity

Mild   10 of 38 found this mild

There is absolutely no sex throughout this entire film. No nudity except Jack-Jack's diaper change.

A brief kiss between 2 characters

Characters of various genders wear spanedex leotards (obviously, because it's a superhero movie)

Helen, AKA ElastiGirl wears a rather revealing black-and-grey skin-tight suit throughout most of the film.

Elastigirls suit is very tight as the film focuses on her curves

Helen wears a white bathrobe revealing her legs.

You need to click through to expose the ratings distribution (it is hidden in a div, so can be scraped as well):

Sex & Nudity

Severity?   None   17   Mild   10   Moderate   4   Severe   7

There is absolutely no sex throughout this entire film. No nudity except Jack-Jack's diaper change.

All content areas need to be scraped (5 in total):

Alcohol, Drugs & Smoking

Mild   9 of 25 found this mild

Helen and others drink wine and cocktails at parties and the like.

Frightening & Intense Scenes

Mild   11 of 27 found this mild

Scenes of superheroes turned to villains vs. kids are scary to children.

At the beginning of the film, a boy is briefly shown being memory-wiped, and he appears to have been knocked unconscious. Might be slightly worrying to some younger viewers.

[others are not screen shot here, but are listed below again]
"Sex & Nudity", "Alcohol Drugs and Smoking", "Frightening and intense scenes", "Profanity", "Frightening & Intense Scenes"
